

DOER Intern Information Form	Renewables
Name of Supervisor:	Michael Judge
Supervisor Title:	Director, Renewables Division
Program Area:	Renewables and Alternative Technology
Phone:	
Email:	michael.judge@mass.gov
Intern Projects, Tasks, Roles, Responsibilities:	The Renewables Division administrates the Renewable and Alternative Portfolio Standards (RPS and APS) for Massachusetts' electric supply and develops programs to promote the growth of renewable energy. The Division is looking for a motivated candidate to assist with the implementation of these programs and other programs for which the Division is responsible. Previous knowledge of the technologies is not required; project will provide an excellent opportunity to become familiar with renewable energy technologies and policy.
Minimum hours/week required:	Minimum 20 hours per week, prefer minimum of 30 hours in summer
Internship Dates (if ongoing, just say ongoing):	Summer 2019
Skills required/preferred:	The ideal intern will have strong communication and administrative skills. Inter-personal communication, ability to write well, experience with excel preferred, some knowledge of energy and climate issues preferred, desire to work in a team atmosphere but ability to work independently.
Salary (if none, please say none):	None
Other Information:	Visit the Renewable Energy Division Website for more information on the Division.
How to Apply:	Send resume and cover letter via email to samantha.meserve@mass.gov
